Para Medic 8 yrs. - Allied Amb.
5/24/95 Thurs - responded to call Park & Mac with
from Heyland.

- Arrived on scene - 1 Amb crew was there
- My partner [redacted] - went to Cardiac
lady in other car.

- I went to assist Suburban, white wagon.
Two men were trying to extricate female driver
went to passenger - white male;
I asked him his name, age. What happened
where you hurt?

He said - Cherney - spelled it, "This was an
assassination attempt, they've been trying to
kill us for a long time." A car bomb, bomb exploded.
He - "How's Judi Bari, How's Judi, Is she OK.
She's a goddess, do you know she's an
environmental activist, we're with Earth
first.

Repeated couple of times. This is an assassination
attempt - they're trying to kill us.
Cherney - knew he was in O.A.R. his age and
seemed "oriented to the event"

When I arrived, [redacted] on - Allied
was at Passenger car + Cherney had a trauma
dressing to left eye.

I stood Cherney up + turned him + he sat him on gurney
in car board.

Cherney was talking all the time - Video was on us TV?
It struck me ~~was~~ that Cherney ^{felt} that a bomb exploded

2.

Cherney did not have to ask what happened at all at the time, I didn't know what the cause of the accident was.

Cherney, an Ambassador talked re his relationship w/ Bau: "She was my girl friend. We just broke up. I'm trying to work things out"
"God Bless her"

his injuries were: left temporal laceration 1 1/2"
left eye contusion - swelling
left calf abrasions
scritch marks on left arm & side

when I first approached the Suburban, saw ~~family~~ ~~driver~~ ~~mob~~ passenger cell wearing army fatigues pants & took 1 shirt
Cherney spoke about his group - tree spikes, something in Santa Cruz

-Cherney's demeanor was completely unusual.
he spoke loud & as if to draw attention to himself & group - not conversational tone
Cherney was extremely distrustful of assurances that the driver was alright.
"If they" didn't kill us. They tried to run her down
focus of his comments was on her & her standing in the organization, rather than what happened.

Agent ;

Attached is the flyer, I described over the telephone. It was located at the Arcata Co-Op Market (811 I St., Arcata) on Monday, August 27, 1990 by Officer  was conducting regular foot patrol at the time. The radical nature of the flyer prompted him to collect it and bring it to my attention. This is the only copy of this particular flyer to have been located. Efforts to locate others are being made.

I have located only one similar type style. This is on the flyer I've attached. I don't recall exactly when or where we obtained this one.

If I may be of any other assistance, please feel free to contact me. I will forward any other pertinent information.

Results of examination

It could not be determined whether the questioned writing appearing on specimens Qc449 through Qc454 were all prepared by the same writer because of variations in printing style as well as the hand drawn nature of the questioned writing.

The submitted specimens have been photographed and are being returned as enclosures with this report.

Results of examination

Some similarities were observed in printing style when comparing the writing appearing on specimen Qc448 with the questioned writing on the Q2 cardboard (00601001 S/D YR WW). However, because of the hand drawn nature of the the questioned writing, it could not be determined whether both entries were prepared by the same writer.

Indented writing in the same printing style was observed on specimen Qc448 which reads:

"THE UNION NEWSPAPER

Photographs have been made and are retained.

Specimen Qc448 will be returned with the results of the latent fingerprint examination.

Results of examination:

The typewriting appearing on specimens Q16 through Q19 is a Pica style of type with a horizontal spacing of 10 characters per inch. This style of type is found on Royal typewriters and possibly other brands. The typewriter used to prepare Q16 through Q19 was a typebar machine equipped with a fabric ribbon. Additionally, a number of distinctive characteristics were observed indicating the questioned typewriting may be identifiable with the typewriter used in their preparation.

The specimen Q16 envelope bears some distinctive manufacturing characteristics by which it can be compared with suspect envelope sources.

The 25 cent Jack London U. S. postage stamp on Q16 was removed from a booklet of stamps.

"Stuart Hall Kleenerase ERASABLE BOND" watermarks were observed on specimens Q17 through Q19. This watermark appears on paper manufactured by Stuart Hall Co., Inc., P. O. Box 1381, 2121 Central St., Kansas City, MO 64141, telephone number 816-221-8480.

The submitted specimens were searched in the appropriate sections of the Anonymous Letter File without associating them with specimens submitted in other cases. Representative copies have been added to the file for future reference.

No indented writing or other observable physical characteristics were observed which would aid in identifying the immediate source of the submitted specimens.

Specimens Q16 through Q19 have been photographed and will be returned with the results of the requested latent fingerprint examination.
